BS Information Technology – Graduated 2022
Asian College of Technology

ABOUT ME

Freelance web developer specializing in WordPress and Elementor Pro, delivering fast, responsive, and conversion-focused websites. Experienced in e-commerce integration, custom API connections, and full-stack development. I handle projects end-to-end—from hosting setup and database planning to design and deployment—with clear communication and quick turnaround.

EXPERIENCE

Freelance Web Developer

Remote | 2023 – Present

- Built websites and landing pages for small businesses using Elementor Pro
- Integrated WooCommerce stores with secure Stripe payment gateways
- Connected WordPress sites to Mailchimp for automated email marketing
- Optimized page load speed and implemented on-page SEO with Yoast SEO
- Integrated Hospitable PMS with WordPress and Elementor, enabling automated property listings, booking widgets, and real-time availability synchronization.

Full Stack Web Developer – JRC Visa Consultancy & Immigration Services

March 2023 – October 2025

- Developed and maintained internal web applications for client processing
- Built a time-tracking system for employees to clock in/out, file leave requests, and calculate remaining leave balances
- Created a CRM-style web app to manage client records, track transactions, and update application statuses in real time
- Improved database workflows for faster document handling

Back-End Web Developer – Proweaver

Aug 2022 – Feb 2023

- Created custom CMS and web features using PHP and CodeIgniter
- Designed responsive web layouts with Bootstrap and jQuery
